Amendment to the Specification

In the Specification:

Please amend the specification as follows:

On Page 1, line 3, after the title, "**PROCESS OF LOCALIZING OBJECTS IN MARKUP LANGUAGE DOCUMENTS,**" and before the heading "**Field Of The Invention**," please insert the following heading and paragraph:

<u>**Related Applications**</u>

This application is based on a prior copending provisional application, Serial No. 60/193,406 filed on March 29, 2000, the benefit of the filing date of which is hereby claimed under 35 U.S.C. § 119(e).

On Page 23, Line 9, please replace the current paragraph with the following paragraph:

As with the lobby.htm, 1_status.htm includes JavaScript™ code to link placeholder values in 1_status.htm with localized values through the use of global.js. In particular, lines 60-61 of l_status.htm reference an UPDATE_MESG placeholder value that is replaced with a corresponding UPDATE_MESG value of "This presentation broadcast has ended," as defined in a line 23 of global.js (English). In a similar manner with respect to German lobby page 100' (see FIGURE 6), the UPDATE_MESG placeholder value in 1_status.htm is replaced with "Diese Vorstellung Sendung hat beendet," as defined in a line 23 of global.js (German).
